Dear Councillor Colle,

Just a personal note to express my thanks for your support for BPRO at last night's public meeting for 3180 Yonge.

As promised, we delivered numbers both in attendees and correspondence, evidence of the strong opposition by BPRO and our members to the proposed development.

Personally, my take from the applicant's presentation is that they are looking right past the City's approval process and focusing on going to LPAT, which will be both expensive and time-consuming for the residents and the City of Toronto.

We appreciate all that you are doing with limited resources and are open to any suggestions or advice to help us achieve our goal of ensuring the developer adheres to the City's Mid-Rise guidelines in the redevelopment of 3180 Yonge Street.

Best,

Ted Butler
President
Bedford Park Residents Organization
